

Earth's Spheres – Student Worksheet

Name: _____

Date: _____

Directions: Fill in the blanks with the name of the correct sphere.

A rabbit is a part of Earth's _____. It lives in a burrow underground, a part of Earth's _____. Every day it gets the oxygen it needs to live by breathing air, a part of Earth's _____.

It eats mainly green vegetation, which, like the rabbit is a part of Earth's _____. It drinks water from rivers, lakes and ponds, a part of Earth's _____.

Notice how the four spheres interact in the life of a rabbit!

Directions: Examine the picture below. Which spheres can you identify? List them in the space below and justify your answer.
