

If you are looking for ideas for scientists, google scientists who have contributed to _____. This should give you a number of options, and links to others. Also, you can use wikipedia and click links of scientists who worked with someone. For example, look up Albert Einstein, and find other names in that section to find contemporary scientists.

Rubric for Scrapbook:

Biography (40)

Personal Data (10)

- Name/Lifespan (2)
- Place of birth (2)
- Education/Degrees (2)
- Parents, children, spouse names (2)
- Interesting Facts (2)

Scientific History (30)

- Shows evidence of accurate research (5)
- Describes the environment the scientist grew up in (5)
- Presents important facts leading up to their research/discoveries (10)
- Area of study (2)
- Why did they choose the area (2)
- What experiments/research did they perform (2)
- When did they do this (2)
- Who did they work with (2)

Discoveries (10)

- List and describe their important discoveries

Contribution to science (10)

- How does this person's work help us today

Note: For total mark, the above will be averaged for each of the 4 scientists.

References (10)

- List in APA format - you need at least 4 total

Scrapbook (30)

- Layout/Design (10)
- Pictures (5)
- Headings (5)
- Title Page (5)
- Extras (5)
